***Self Retaining Retractor System***

**ankalaps<sup>®</sup>**  
**[www.ankasurgical.com](http://www.ankasurgical.com)**

ISO 13485:2016

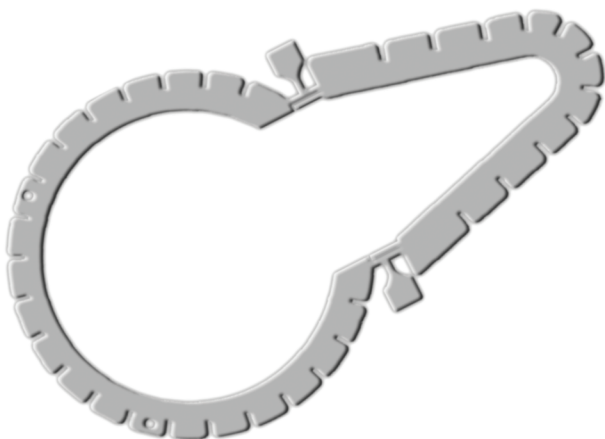

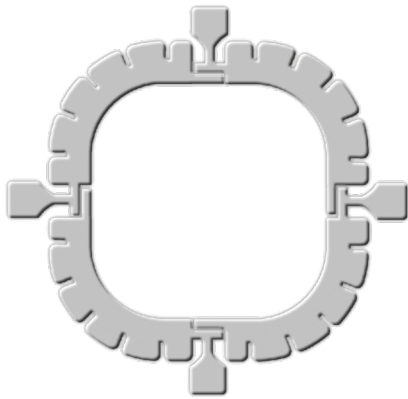

Moon Star self retaining retractor system consists of a combination of retractor rings and hooks. It is available in many sizes and shapes that can be easily adapted to different anatomical areas, facilitating use in many various procedures such as during vaginal and anal surgery. The hooks and rings of Moon Star Retractor are a great system to adjust sensitive tissues. The flexible structure of the system allows the transfer of the Moon Star Retractor and excellent access to the operation site during the surgical procedures. The flexible hooks can be adjusted during surgery to provide optimal tension. Moon Star Retractors and hooks release the hands of surgeon and assistant so that the assistant perform other tasks and prevent loss of work force. Supplied with 16 different types of hooks made of stainless steel.

Moon Star Self Retaining Retractor Systems are available REUSABLE (R) and DISPOSABLE (D)
